11/1/69

Dear Bud,

At your earliest convenience (unless it can be done in your absence) I'd appreciate a check of the card file, incomplete as it is, for all listing of H.L., Lamar and Dunker Hunt. I am asking the Archives for everything. This will give me a check on their completeness and may also disclose some classified items of which they may not tell me.

On another subject, you will recall that the Archives insist, in writing, that neither they nor GSA has a transcript of the Halleck trial. I now discover that they have a file on this (money-making) from which they have been selling the panel report (free from D.J.). In short, they have an archive outside the WC material, organized selectively, to include what is ow can be made to seem to be congenial to the official fiction and excluding what is so utterly destructive of it.

Missle-age "scholarship".

Best

HW
